

Comprehensive Log Collection and Management

Powered by Snare

Snare Agents and **Snare Agent Manager (SAM)** provide a powerful, flexible solution for comprehensive log collection and centralized management. Our solution offers extensive coverage, collecting logs from operating systems, applications, and other sources. The vendor-agnostic approach lets you collect once and deliver to multiple destinations, simplifying your log management infrastructure.

With Snare Agents and SAM, you gain granular control over your log collection policies, letting you fine-tune and optimize data capture. Centralized management capabilities make deploying and managing agents across your entire infrastructure easier, and our out-of-the-box audit policies are aligned with industry best practices, so you're always compliance-ready.

Navigating today's complex technology landscape is no easy task. Many organizations face challenges like achieving full network visibility, managing costs effectively, and staying compliant. Discover how Snare tackles these obstacles head-on:

When you choose Snare Agents and SAM, you're partnering with an industry leader in log management with over 25 years of expertise. Here's how we help you stay secure, compliant, and efficient:

- **Centralized Management:** Seamlessly manage all your agents from a single, unified platform, saving time and effort.
- **Streamlined Log Collection:** Simplify the process and reduce administrative overhead, so your team can focus on what matters most.
- **Effortless Scalability:** Scale your log management solution with ease as your infrastructure grows, ensuring consistent performance.
- **Flexible Deployment:** Deploy Snare however it suits your business – on-premises, in the cloud, or through a hybrid setup.
- **Unmatched Integration:** Collect logs from more sources, giving you superior visibility across your infrastructure.
- **Cost Optimization:** Optimize log collection to reduce upstream costs while maintaining robust security.
- **Future-Ready Compliance:** Easily adapt to evolving compliance standards and emerging security threats to keep your business protected.

Don't settle for less when it comes to security and compliance. With Snare Agents and SAM, you gain a comprehensive log management solution that aligns with your compliance needs, controls costs, and provides world-class security – all in one place.

Contact us today to discover how Snare can revolutionize your log management strategy and elevate your enterprise security.
